Notes:

- (1) With effect on 31 December 2016, the Directors determined to change the accounting treatment/classification of its 36.16% interest (52,553,493 shares) in [Strike Resources Limited](#) (ASX:SRK) from being an investment in an Associate entity (accounted under Accounting Standard [AASB 128](#)) to being an investment in a Non-Current Asset Held For Sale (accounted under [AASB 5](#)).

This decision was made as a consequence of the change in Strike's circumstances pertaining to their announcement on 14 December 2016 that Strike had entered into a conditional sale agreement with a subsidiary of Chinese industrial and financial group Zhongrong Xinda Group Co. Ltd. to sell its high grade Apurimac Magnetite Iron Ore Project and Cusco Magnetite Iron Ore Project in Peru for US\$10 million (subject to completion of due diligence (by 30 April 2017), execution of final documentation and compliance with all regulatory requirements)¹.

The \$3.33m month end carrying value of Bentley's 52,553,493 shareholding in Strike is 6.7 cents per share (based on SRK's closing bid price on ASX) less deferred tax on the potential gain on sale.

- (2) Units invested in the CBG Australian Equities Fund (Wholesale) (**CBG Fund**) are valued at the audited unit price published by the investment manager, [CBG Asset Management Limited](#), as at month end - the unit price reflects the net asset backing of the fund; there is no buy/sell spread price; there is no recognition of realisation costs as there are no exit fees charged on redemption of units.
- (3) The post-tax NTA Backing per share figure is reported net of provision for tax liabilities on realised and unrealised gains on investments, in accordance with the Company's income tax accounting policy (refer Note 5 (Income Tax) at page 37 of the Company's [2016 Annual Report](#) released on ASX on 31 August 2016).
- (4) Bentley's current accounting policy is to recognise deferred tax assets arising from its carried forward tax losses and its unrealised loss on investments only to the extent of offsetting any deferred tax liabilities arising from its unrealised gains on investments.
- (5) Bentley's current accounting policy uses the first in-first out method of calculating gains or losses on sales of share investments.
